Employment History

Warranty Administrator   05/15 – Current
Ray Dennison Chevrolet – Pekin, IL
Support, billing and administration role handling transactions and ensuring proper flow in the dealership. Handled sensitive data regularly and submitted claims in proprietary Dealer Management System software. Ran reports, tracked metrics, and analyzed data for use in payroll, production, and financial transactions.

Service Consultant   09/08 – 05/15
Ray Dennison Chevrolet – Pekin, IL
Managed a team of 4 technicians and Earned ASE & General Motors certifications for demonstrating competence, skill, attention to detail, and overall tenure. Exceeded monthly Customer Satisfaction Index goals set by General Motors Corporate, and became a staple of the Dealership that my customers could trust regularly.

Automotive Technician   03/02 – 09/08
Ray Dennison Chevrolet – Pekin, IL
Technical role of Light-Duty vehicle maintenance, with minor sales and subsequent repairs of automotive maintenance items.

Education

Certificate, Software Developer   2017 - 2018
Woz U - Scottsdale, AZ
A 33 week boot camp, with emphasis on Full-Stack Development in multiple languages and frameworks, in an agile project management environment.

Certificate of Completion   2010
Dale Carnegie Course - Peoria, IL
Mastered the arts of communication, attitude, enthusiasm, and confidence in the Dale Carnegie way. Immediate implementation to my workplace resulted in measurable improvement in customer satisfaction and revenue for my employer.

Projects

MovieFive   http://moviefive.herokuapp.com
Creates a "Top 5" list for users to rate/list their favorite movies, create ratings for other lists, and the ability to share on social media. Created in a MERN stack (MongoDB, Express, ReactJS, NodeJS) with Passport authentication and usage of The Movie Database (TMDB) API.

Digital Portfolio   http://nannerfox.github.io
Collection of my notable projects, past and present.
